The Transcraft Corporation of 110 Florsheim Drive, Anna, Illinois has applied to the Kentucky Division for Air Quality for the renewal of their permit to operate a flatbed trailer manufacturing plant at 3379 Owingsville Road, Mount Sterling, Kentucky. The plant is classified as a Conditional Major source due to its having potential emissions of criteria hazardous air pollutants greater than a major source threshold. This permit contains practically enforceable limitations to restrict this source's potential emissions to less than a major source threshold.

An electronic copy of the draft permit should shortly become available at <http://www.air.ky.gov/permitting/>. Copies of the draft permit and relevant supporting information are available for inspection by the public during normal business hours at the following locations: Division for Air Quality, 803 Schenkel Lane, Frankfort, KY 40601; Division for Air Quality Ashland Regional Office 1550 Wolohan Drive, Suite 1 Ashland, KY 41102 and the Montgomery County Clerk's Office, 1 Court Street Mount Sterling, KY

The Division is soliciting comments on the draft permit and affording the opportunity for a public hearing. To be considered, any written comments or requests for a public hearing must be postmarked within 30 days following the date of this notice. Comments and/or public hearing requests should be sent to Mr. James Morse at the above Frankfort address. Any person who requests a public hearing must state the issues to be raised at the hearing. If the Division finds that a hearing will contribute to the decision-making process by clarifying significant issues affecting the draft permit, a hearing will be announced. All relevant comments will be considered in issuing the final permit.
